DETAILED ACTION

1. Applicant's amendment filed on 7/31/2008 has been received and entered in the case.
2. Applicant's amendments and/or arguments with respect to the claims are moot in view of the examiner's amendment below.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with William J. Clemens on 9/16/2008.

4. The application has been amended as follows:

In the Claims:

Cancel claims 16, 17, and 18.

In claim 1 line 4, delete the word -- the --- "after" from.

In claim 1 line 6, insert -- ,wherein the secondary part extends longitudinally along a first path, and the primary parts are coupled for movement together relative to the secondary part along the first path, wherein the primary parts are selectively movable toward and away from each other along a second path transverse to the first path.
--- "after" part.

In claim 10 line 8, insert -- ,wherein the secondary part extends longitudinally along a first path, and including coupling the primary

parts for movement together relative to the secondary part along the first path, and selectively moving the primary parts toward and away from each other along a second path transverse to the first path. --- "after" force.

In claim 12 line 6, insert -- ,wherein the secondary part extends longitudinally along a first path, and the primary parts are coupled for movement together relative to the secondary part along the first path, wherein the primary parts are selectively movable toward and away from each other along a second path transverse to the first path. --- "after" another.

Allowable Subject Matter

5. Claims 1-15 are allowed.

6. The following is an examiner's statement of reasons for allowance:

Claims 1, 10 and 12: The specific limitations as to the primary parts being selectively movable toward and away from each other along a second path transverse to a first path to which a secondary part extends longitudinal was agreed to during the telephone interview with applicant's attorney. During said interview, it was noted that applicants did not clearly specify how or to what extent did the primary parts moves relative to one another and/or towards and away from one another in comparison to the prior art. It was agreed that adding the specific limitation mention above would put the case in condition for allowance, since the prior art does not fairly suggest it alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
